Generative AI in a Nutshell - how to survive and thrive in the age of AI

Computers have gotten “smarter”

Execute
Instructions

Learn &
“Think”

Jeremy Utle
Stanford Professor
AI & Innovation Expert

“Folks using chatGPT outperformed those who did not...by a lot.

On every dimension.

They finished **12% more tasks, 25% faster,**
with **40% higher quality** results.”

Average Gain: **7.5 hours** of productivity
per week after five hours invested

U.S. Christians Prefer a Human Touch for Most Church Functions

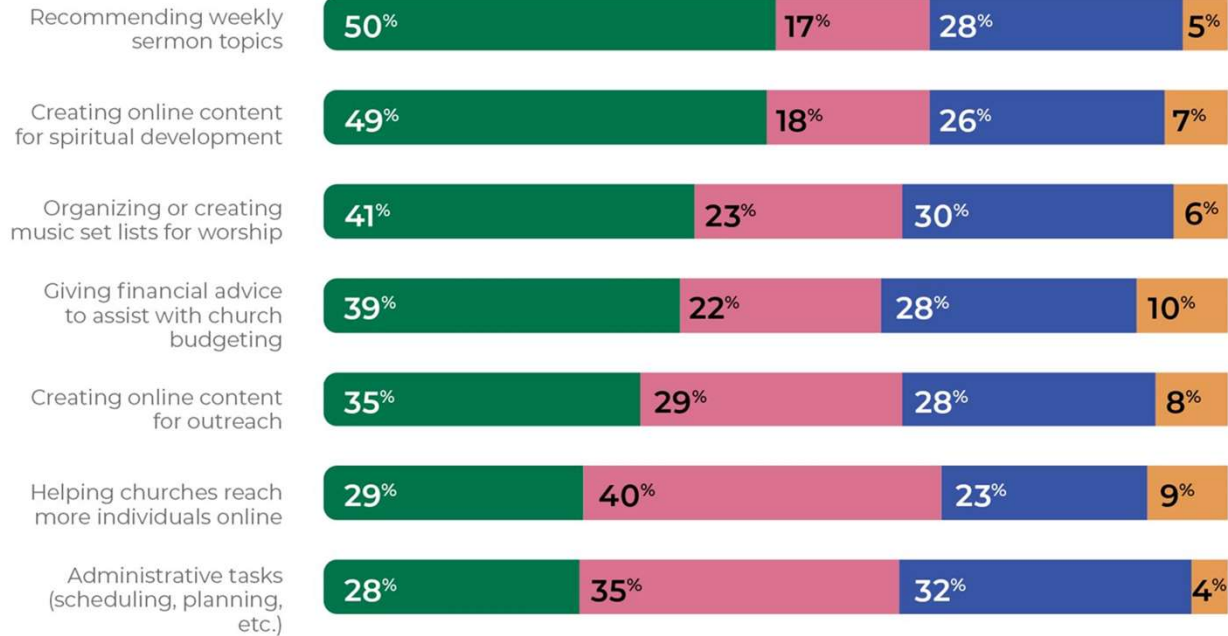

Barna

Thinking about churches, of the following, which do you feel AI could do better, and which do you feel a human could do better?

Base: Christians

- A human could do this task better
- AI could do this task better
- AI or a human would do this task at the same level
- Not sure

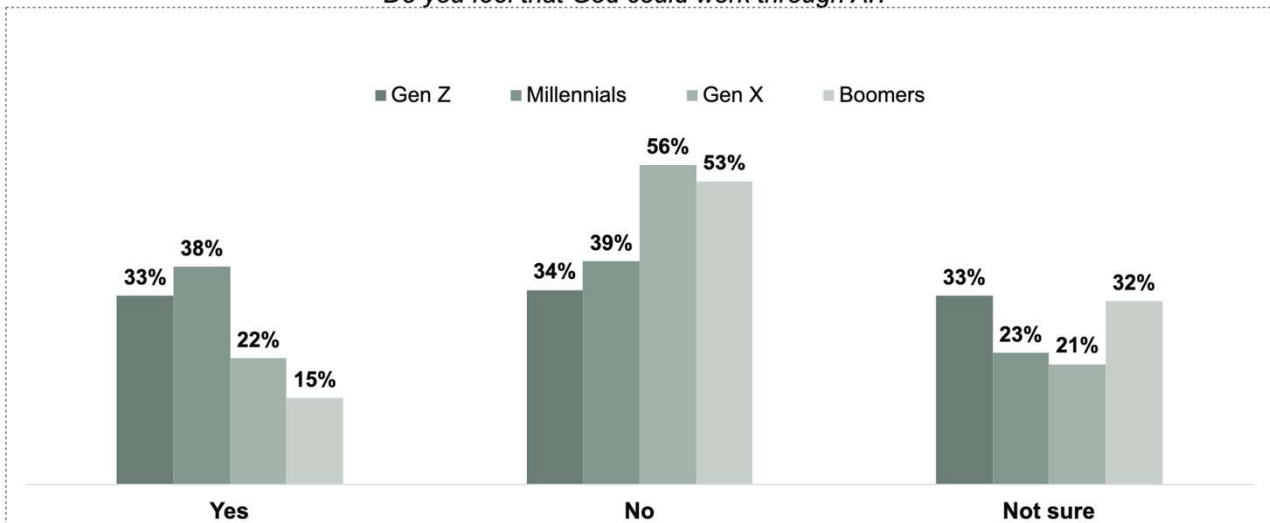

n=656 U.S. Christian adults, May 21–31, 2024.

Generations hold different perspectives on whether God can work through AI

Barna

Do you feel that God could work through AI?

Theology of AI

Genesis 1-3
Deuteronomy 6 & Matthew 22
Genesis 2 & Exodus 20

10 AI Tools Every Church Leader Should (Probably) Try

1. [Perplexity.ai](#) - AI "answer engine" with footnotes & links
2. [Fathom.video](#) or [Tactiq.io](#) - AI meeting notetaker
3. [ChatGPT.com](#) - Start your AI chatbot journey here
4. [ElevenLabs](#) - Text-to-voice and voice-to-text tools
5. [Canva Magic AI](#) or [Gamma.ai](#) - Presentation creation
6. [Ideogram.ai](#) - AI image generator
7. [Suno.com](#) - Music generator
8. [NotebookLM](#) - Upload docs & auto-create podcasts & more ([Listen](#))
9. [OpusClip](#) - Sermon clips for social media and shorts
10. [Church.tech](#) - Sermon repurposing tool; social clips, images, devotionals, discussion guides, transcripts...

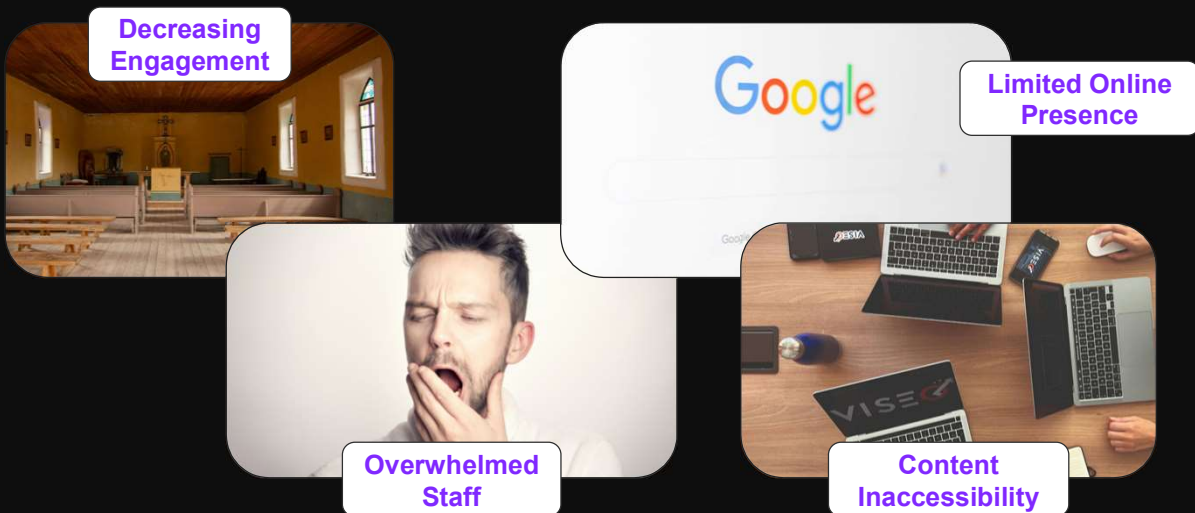

Three Recommendations:

- 1. Use Your Voice**
- 2. Respond to Responses**
- 3. Invite Questions**

If this is your reality...

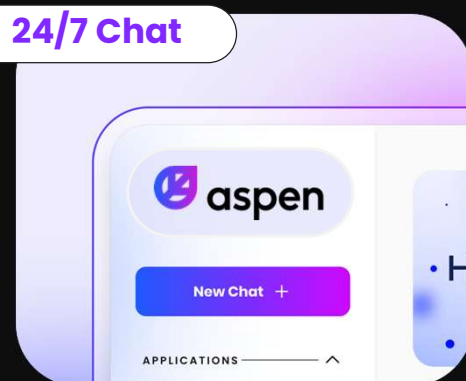

Optimize your content & website
To increase **reach** and **impact**

Your Church AI Assistant

Provides responses based on
your church's unique content

24/7 Chat

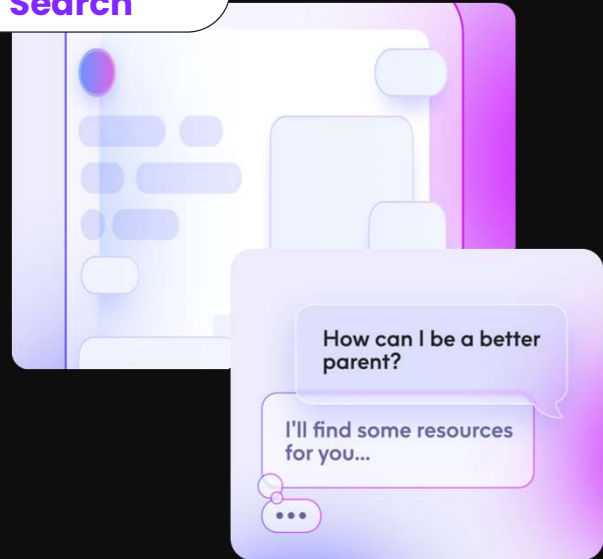

Centralized Content Library

Every sermon optimized to help seekers **find and engage** with your content

Enhanced Search

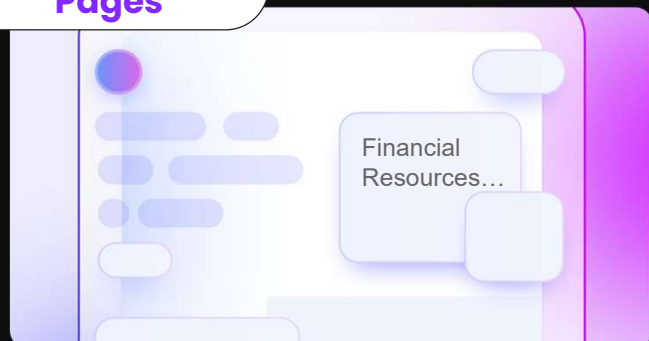

AI Enhanced Sermon Tools

Turn sermons and resources into SEO optimized landing pages and guides for greater discoverability

Landing Pages

How is **Aspen** Different?

Aspen is built on KaLLM (Kingdom-aligned Large Language Model), meaning that all resources are aligned with biblical principles

The Flourishing Collection

Contribute to the fastest-growing library of Christian content, and share it with those inside and outside your church

7 Days of AI

1. Day 1: Watch [this](#) 18 minute video. It is the best and most comprehensive explanation of Generative AI titled, Generative AI in a Nutshell - how to survive and thrive in the age of AI by Henrik Kniberg. He calls it "Einstein in your basement." SOURCE
2. Day 2: Ask ChatGPT "I'd like some good ideas and illustrations for my presentation on generative AI for my hesitant church staff. Can you give me 3-4 examples of emerging technologies that the church was hesitant to adopt but later proved to be super useful in advancing the cause of Christ and growth of his church?" Then ask for another 3... and another 3, etc. TIP: Fingers are "bottlenecks." Speak into Chat on your phone.
3. Day 3: Create a picture by describing a scene you'd like to see using the same description using the following image-generating apps: Meta.ai, Midjourney, ChatGPT 4o, Ideogram.
 - a. Tip: To create the best pictures use detailed, descriptive prompts that specify the subject, setting, lighting, mood, and even artistic style, including elements like "a high-quality, realistic portrait of a young woman with sea-blue eyes, sun-kissed curly hair, in soft, natural light, wearing a flowing summer dress, standing in a vibrant meadow at sunset." It's also fun to ask that the picture be in the style of Vincent van Gogh, Claude Monet, Salvador Dali, Pablo Picasso or Frida Kahlo
4. Day 4: Create a summary, discussion questions, a podcast and much more based on a document (sermon, article, pdf) you have on your computer. Watch the brief instructional YouTube video [HERE](#), then go to <https://notebooklm.google/> and give it go. I loaded up the pdf of an entire book I wrote and LOVED the results.
5. Day 5: Create two worship songs. Of course we'll need one from your 8th Grade self (my gosh! Who wrote that dreadful Father Abraham song?) and another one that is spiritual and reflective, TOOL: Suno.ai
6. Day 6: Create a PowerPoint Presentation using Gamma.app. Simply load up a transcript or document and Voila! I went to YouTube and pulled up a sermon from my pastor and just loaded up the transcript. (Find transcript by hitting MORE button in description on YouTube). Or...use the info you received from your Day 2 learnings
7. Day 7. Now take that same transcript and paste it into ChatGPT4o and ask for 3 solid discussion questions and one good application question for a long-time church-goer, a seeker who is checking out the faith and a teen who has grown up in the church.
