

Telios Law serves businesses, individuals, ministries, and churches, representing them in litigation, investigations, appeals, and alternatives to litigation, as well as giving legal advice on a variety of issues.

Lawsuits. Employment Issues. Misconduct Allegations. These legal conflicts can leave people divided, morals compromised, and the truth lost. Telios Law creates legal solutions that can help solve conflicts in ways that heal people and preserve their vision and protect from liability, without compromising belief.

When we practice law in a way that prioritizes healing and reconciliation, it helps our clients build healthy, safe work environments.

There's a lot to know about running things right. And there's very little time in which to learn it. Whether it's training, news letters, or legal advice, we can help protect your community.

Not even counting the financial devastation that lawsuits can cause, allegations can jeopardize your ministry's future by ending relationships, damaging your culture, and undermining your reputation.

Telios Teaches' concise, values-based training teaches from an Imago Deo (image of God) perspective, helping your learners understand prevention and empowering them to fulfill their calling.

Employees are happier and healthier when they are protected with a values-based workplace culture that speaks to and preserves their core beliefs.

Free Training: Navigating the Storm

Allegations of misconduct can create liability and destroy relationships, but a misconduct allegation handled well protects the innocent.
